

1. To assemble, raise the backrest and armrests as shown in the image above.

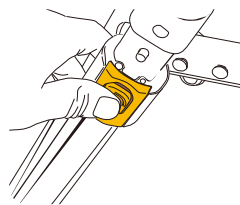

2. Flip the backrest up into the full upright position. Start opening the chair by raising the table up until the chair is partially open.

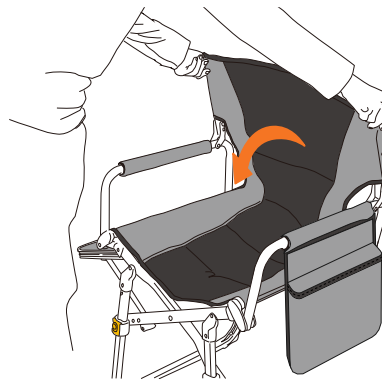

3. Firmly push downward on the seat base at the front left corner, right above the locking system. At the same time, tilt the chair to the left and pull the right chair leg out with your other hand until the locking mechanism clicks securely into place.

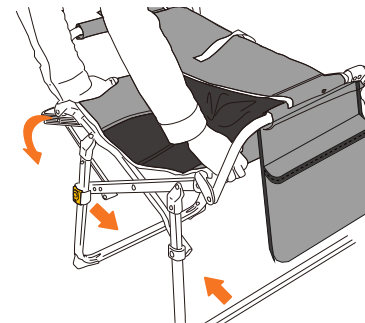

4. Press the edge of the seat base or armrest to check that the locking system is firmly secured in place before using the chair. The opened chair will appear as shown above.

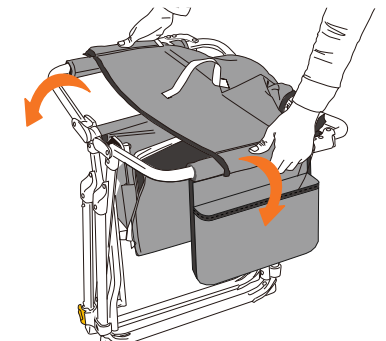

5. To disassemble, push the button on the left leg (shown above) to release the locking mechanism.

6. Pull backrest down.

7. Push frame inwards, ensuring table and cooler are folded into compact position.

8. Position folded backrest over folded chair.
